Everything you need comes on one CD, providing a complete work environment.

Ubuntu users have access to thousands of software packages from the Ubuntu catalog. You can browse and install at the touch of a button. No need to hunt down programs online!

A new Ubuntu version is released every six months, so it's easy to have the latest and greatest software. Ubuntu releases are supported for eighteen months. If you prefer to upgrade less often, you can use Long Term Support versions, which are released every two years and supported for three years.

This software is released for free public use under several licenses. It is provided without warranty, without even the implied warranty of merchantability, satisfactoriness or fitness for a particular use. See the license text included with each program for details. Source code for Ubuntu can be downloaded from archive.ubuntu.com or can be ordered from Canonical at the cost of the media and shipping.

Pass it On!

This CD can be used to install Ubuntu on an unlimited number of PCs, desktops, laptops, and servers. So install it, enjoy it, and pass it on to your family, friends, and colleagues.
We promote Ubuntu because it is a friendly, free alternative to other operating systems. If you are interested in participating, having us speak to your organization, or attend your next event, you can learn more about us at the URL on the top flap.
