

**ubuntu**  
linux for human beings

18th October 2008

Team Ubuntu Singapore Presentation :: <http://ubuntu.sg>

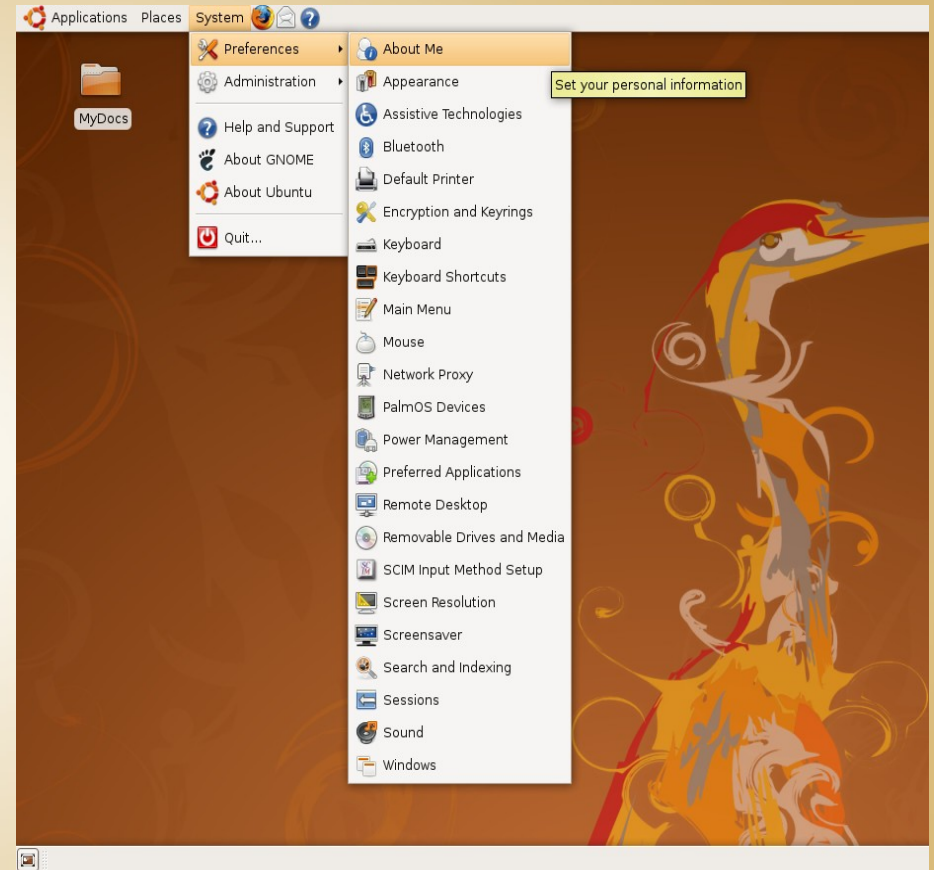

**ubuntu-sg**

`$sudo apt-get install lah`

# humanity towards others

- What is Ubuntu all about?
- Ubuntu 8.04 – Hardy Heron
- Office Tools
- Productivity Tools
- Web Browsing
- Music and Video
- Photos and Design
- Games
- About Team Ubuntu Singapore
- Contact Us

# ubuntu is about...

A community-developed, Linux-based operating system

Comparable to Microsoft Windows

Contains a lot of applications for word processing, email applications, instant messaging, web surfing, graphics design and games

Friendly user-interface

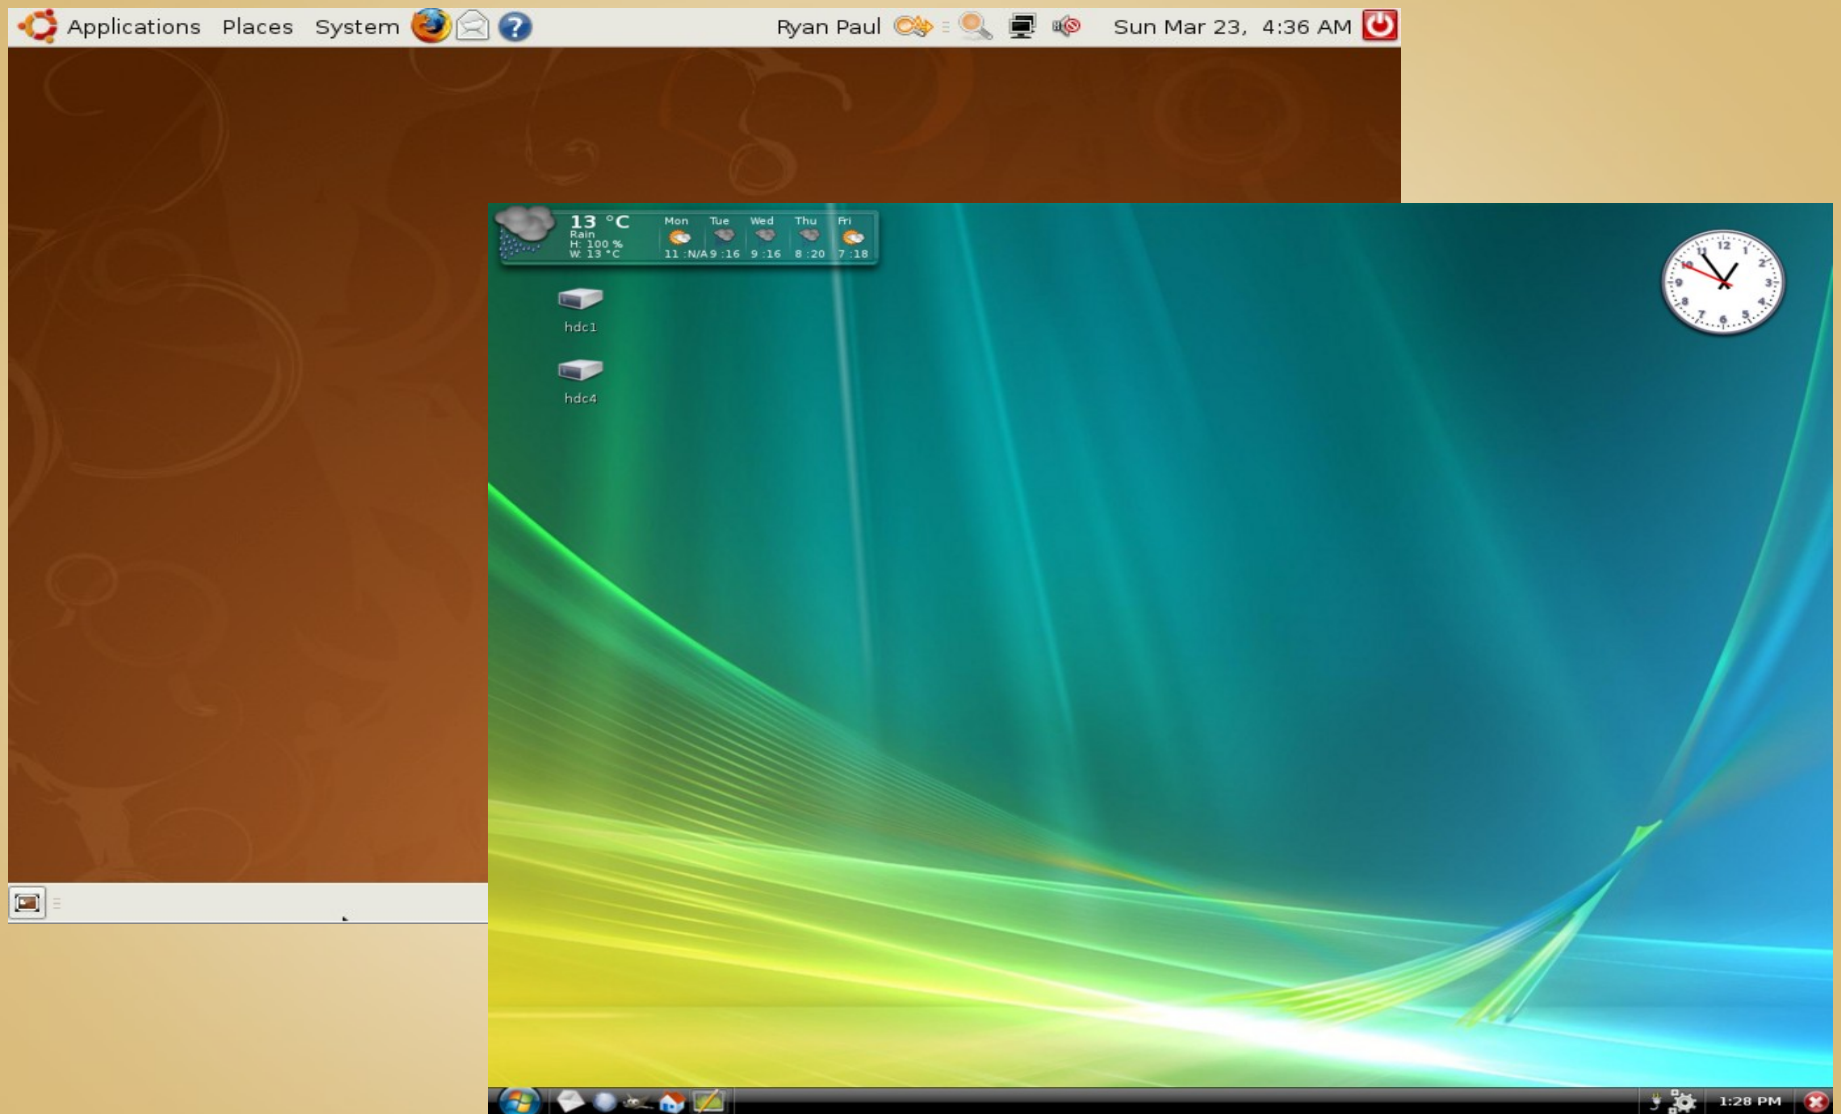

Live-CD

WUBI

Is and always will be free!

# the desktop

<http://gnomestyle.blogspot.com/2007/05/make-ubuntu-look-like-vista.html>

# appearance

The image shows the Ubuntu desktop environment. On the left, the 'System' menu is open, displaying various system settings options. The 'Appearance' option is highlighted. In the center, the 'Appearance Preferences' window is open, showing a grid of theme preview windows. The 'Theme' tab is selected, and the 'Custom' theme is currently active. The preview windows show different window titles, buttons, and folder icons for each theme: Custom (orange), Clearlooks (blue), Crux (purple), and two other themes (light blue and dark blue).

**System Menu:**

- Applications
- Places
- System
  - Preferences
  - Administration
  - Help and Support
  - About GNOME
  - About Ubuntu
  - Quit...

**Appearance Preferences Window:**

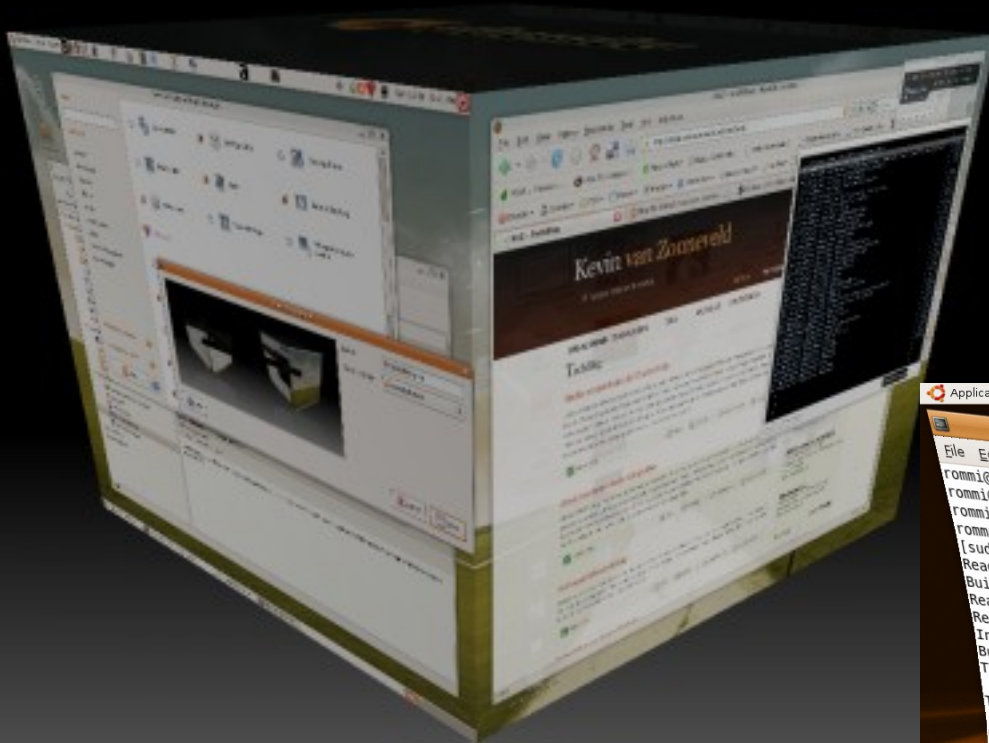

- Theme
- Background
- Fonts
- Interface
- Visual Effects

**Theme Previews:**

- Custom
- Clearlooks
- Crux
- (Light Blue Theme)
- (Dark Blue Theme)

**Buttons:** Delete, Save As..., Customize..., Install..., Help, Close

# one-click add / remove

- Simple graphical interface for installing and removing applications in Ubuntu
- Freely available
- Access to thousands of applications
- Ready to be downloaded and installed in one-click
- No compatibility issue

# office tools

A complete office productivity suite

OpenOffice.org contains a user interface and feature set that is similar to other office suites

Includes all the key desktop applications

- Word Processor
- Spreadsheet
- Presentation

Easily open and share files that uses Microsoft Office, Word Perfect, Koffice or StarOffice

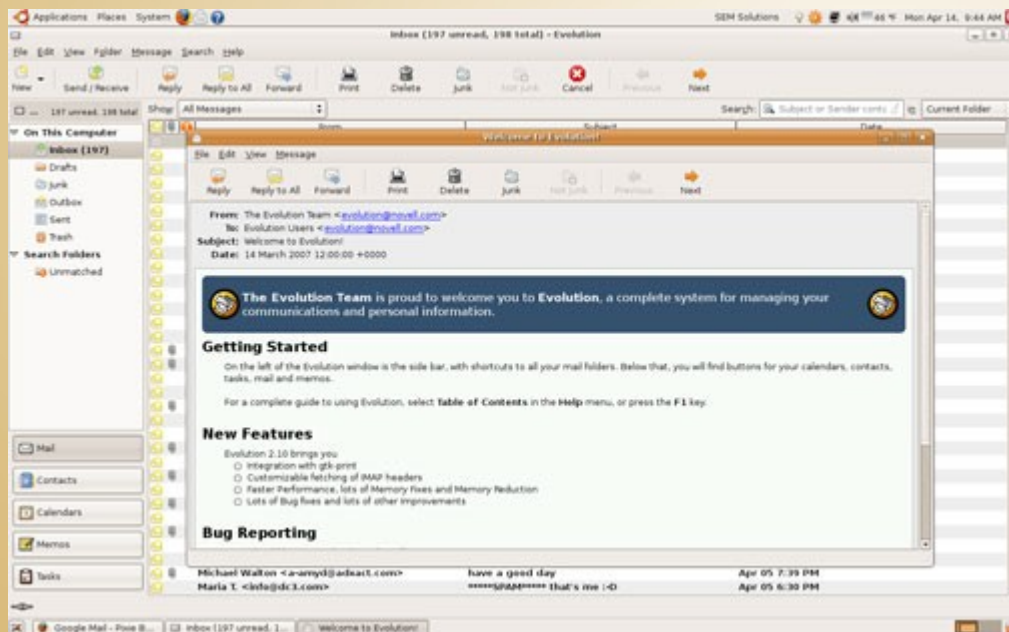

# productivity tools

Evolution Mail is included with Ubuntu

Fully-featured email, calendar, task and contact sharing program

Integrates with on-desktop clock to make sure you don't miss any meetings

# productivity tools

Support for multiple instant messaging protocols  
ie, MSN, Yahoo!, ICQ, IRC, Facebook, GoogleTalk

Extendable through plugins

Tabbed conversation

Supports some file transfers, with ability to pause,  
resume and cancel transfers

# web browsing

Comes by default with the latest browser from Mozilla, Firefox 3 Beta 5

One of the most popular browsers being used on millions of desktops

Specifically themed for Ubuntu and uses familiar looking icons

Safer than ever

# music and video

# photos and design

F-Spot Manager a terrific photo and image utility

Plug and Play your camera

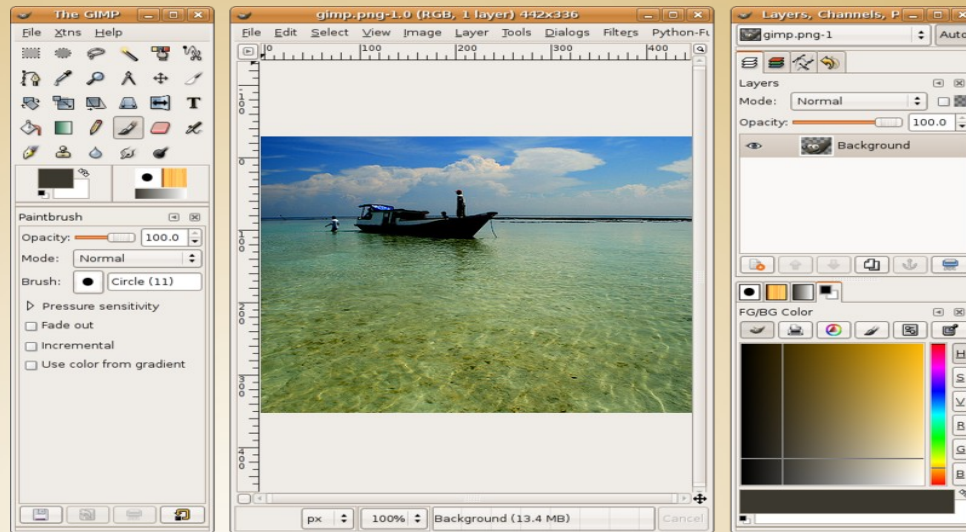

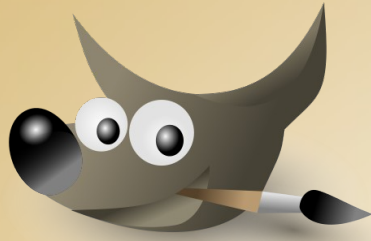

Organise your photos in a fun way

Export to your favourite online photo gallery

Edit your photos

# photos and design

Free software alternative for Adobe Photoshop

Create graphics and logos, resizing and cropping photos, altering colors, combining multiple images, removing unwanted images features and converting between different image formats

Comes with 48 standard brushes, plus facilities to create new ones

Includes filters, as well as transformation, selection, layer and masking tools

# photos and design

Available for download via Ubuntu software collection

Open Source vector graphics editor application

Compliant with XML, SVG and CSS standards

Object creation using basic types of Paths, Rectangles and more

Object manipulation subject to transformations

Comparable to Adobe Illustrator

# games

There are thousands of games which are free and will run natively on Ubuntu

Most are available through Ubuntu's software sources

Even Windows games can run using an emulator available for classic games consoles

Enjoy card games or shoot 'em ups, there's something for everyone

A vertical menu of ten unit icons, each with a yellow progress bar below it. The icons represent various ground units and vehicles available for selection.

A circular menu with seven hexagonal icons representing different technologies or upgrades. The icons include symbols for a factory, a nuclear symbol, a hammer, a brain, a gear, and a shield.

### Cobra Hover

A detailed view of the Cobra Hover unit, a tracked vehicle with a green top. The background shows a faint 3D model of the unit's internal structure.

⚡ 101

♥ 619

A targeting reticle with a green center. To the right are four horizontal bars with icons: a star, a lightning bolt, a shield, and a bell.

A vertical menu of ten unit icons, similar to the first menu, with a star icon and a signal icon at the top.
