Martin Owens

is a programmer and community manager involved in graphics art and community activism. He is a strong proponent for Free Software, education and an open community process in all projects.

location: boston USA

"From Graphic to Printed Poster"

Learn about the trials and tribbles of getting wonderful art printed for your local community events and other uses. Martin will teach you what to look out for, the advantages of vector, pdf or png export, sizing, materials and colour correction. A must for everyone looking to raise the profile of Ubuntu locally and beyond.
